Publishers Note:

It has been said that we should have been all born with erasers on our heads because of all the mistakes we make in life. With all there is the think about, spelling words incorrectly shouldn't be one of them.

I published this text for all of us misspellers that want to correct the error in their ways. The English language has so many if's and's and but's, it's really not our fault.

Enjoy,

Rod Beckwith: Publsiher and Convicted REALLY Poor Speller

This book is dedicated to my Dad, the Undisputed King of all Poor Spellers.
